The 2nd ELITE 2025 International Conference

In order to adapt to it and reinvent curriculum, teaching pedagogies, assessment, and make higher education more relevant to students' lives and therefore more engaging, innovative ideas, models, and frameworks are developing, experimenting, and evaluating. The goal of this conference is to offer a platform for dialogue on higher education design on a worldwide scale. It cordially encourages contributions to report cutting-edge analysis, case studies, theory, and application on any subject related to higher education.
